

Position Available: Cognitive/Developmental Postdoctoral fellowship at Wesleyan University.

The Cognitive Development Laboratory and the Reasoning and Decision Making Laboratory at Wesleyan University have an open postdoctoral fellow position, ideally to start in fall of 2016. The postdoctoral fellow will work with Dr. Hilary Barth and Dr. Andrea Patalano on a collaborative NSF-funded project on the cognitive processing of time, space, number, and probability. We seek an outstanding scientist, with a Ph.D. in developmental and/or cognitive psychology or a related area, interested in collaborating on planned behavioral experimental research studies with children and adults in state-of-the-art lab facilities. The fellow will be involved in all aspects of scientific research including study development, data collection involving adults and children, data management and analysis, dissemination of findings, and training undergraduates in the lab. Wesleyan is a selective liberal arts institution with faculty engaged in well-funded and cutting edge research, and an equal opportunity employer that welcomes applications from women and historically underrepresented minority groups. Inquiries regarding Title IX, Section 504, or any other non-discrimination policies should be directed to Antonio Farias, Ph.D., Chief Diversity Officer, 860-685-3927. To apply, please forward curriculum vitae, statement of research interests, and names of two referees to <http://careers.wesleyan.edu/postings/5482> . Please also send vitae directly to Dr. Barth (hbarth@wesleyan.edu) and Dr. Patalano (apatalano@wesleyan.edu). Applications will be reviewed on a rolling basis, with the aim of concluding this search as soon as an exceptional candidate has been found.
